ABOUT ME

I am a dedicated Software Engineering graduate with a Higher Diploma, passionate about developing innovative software solutions and exploring emerging technologies. I possess strong communication and teamwork skills and am eager to apply my knowledge in a professional environment. I am currently seeking an opportunity in the software engineering field to gain industry experience, enhance my technical skills, and contribute effectively to a collaborative team.

EDUCATION

International College of Business and Technology (ICBT)

Higher Diploma in Computing and Software Engineering
2024 - 2025

Al Minhaj National School

GCE Advanced Level
Chemistry - B | Biology - C | Physics - S
2019 - 2021

Al Minhaj National School

GCE Ordinary Level
2008 - 2018

PROJECTS

Taskly - Task management website

[GitHub](#)

Individual Project

- Built a task management application, featuring drag-and-drop boards, role-based access control, task assignment, and RESTful APIs. Utilized persistent MongoDB storage.
- Technologies: React, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, Axios

Rice Link - Farmer Buyer Interaction Website

Group Project | Role: Farmer Module Developer

- Developed the Farmer Section of a web platform that directly connects farmers with buyers, eliminating intermediaries.
- Technologies: HTML, CSS, JavaScript, MySQL

Care Compass Hospitals

Individual Project

- Designed and developed a hospital website where users can view hospital details, book appointments, and make online payments.
- Technologies: HTML, CSS, JavaScript, MySQL

SKILLS

Technical Skills

HTML | CSS | JavaScript | React
TailwindCSS | Next.js | Node.js
Express.js | MySQL | MongoDB
Git | Prisma

Soft Skills

Problem Solving | Self Learning
Fast Learner | Teamwork

EXPERIENCE

Apptron Solutions

Jun 2026 – Present

Jaffna, Northern Province, Sri Lanka

Full-Stack Developer Intern — Remote

- Developed a backend Internship Management System using Node.js, Express.js, and MongoDB.
- Developed the frontend of a Restaurant Web Application using React and Tailwind CSS as part of a team.
- Developing a full-stack Blood Donation Website using React, Node.js, Express.js, MongoDB, and Tailwind CSS.

Ayman Tech Global

Nov 2025 – Jun 2026

London, United Kingdom

Full-Stack Developer Intern — Remote

- Developed a full-stack hospital web application using Next.js, MongoDB, and Tailwind CSS.
- Implemented responsive features and focused on user-friendly design.
